

Cradle to Career
Anchored at United Way of Tucson and Southern Arizona

Three Goals Define the Work of Our Partnership

Thriving Futures

Creating pathways for successful career opportunities for youth in Pima County.

Our mission depends on ensuring that all young people have access to education and career pathways that best suit their needs.

These pathways are unique, and our community partners are creating innovative solutions to address our community's needs in the areas of high school graduation, post-secondary education, and re-engagement of Opportunity Youth.

Leaders in Literacy

Literacy in both reading and numeracy is essential for success in school and skill building.

We address foundational skills in reading and math by working directly with educators and school districts, providing them with opportunities to co-develop strategies and solutions to help all students achieve, equitably.

We facilitate conversations among our district partners, allowing them to learn from each other, implement similar solutions, and replicate successes across Pima County.

Early Childhood Education

Creating a solid foundation for a lifetime of learning.

Early Childhood Education is essential to create a solid foundation for a lifetime of learning.

Our anchor organization United Way of Tucson and Southern Arizona is addressing this need through a variety of programs including increasing access to high-quality early education and care, family and caregiver support, and professional development opportunities for early childhood educators.
